Contents

Research Papers

Separating streamflow into groundwater, solum and upwelling flow and its implications for hydrochemical modelling
C. O'Brien and W.H. Hendershot 1
Acidic mine drainage in carbonate terrains: geochemical processes and rates of calcite dissolution
C.M. Wicks and C.G. Groves 13
Geochemistry of the Obey River Basin, north-central Tennessee: a case of acid mine water in a karst drainage system
I.D. Sasowsky and W.B. White 29
Statistical evaluation of hydrologic conditions in the vicinity of abandoned underground coal mines around Cannelburg, Indiana
D. Harper and G.A. Olyphant 49
A model for phase lag of secondary flow in river meanders
J. Zhou, H.H. Chang and D. Stow 73
Flushing factors and a sharp front solution for solute transport with multicomponent ion exchange
C.A.J. Appelo, J.A. Hendriks and M. van Veldhuizen 89
Flow between aquifers through filled cylindrical conduits: analytical solution and application to underground nuclear testing sites
T. Brikowski 115
Analysis of time-series measurements of sediment temperature for identification of gaining vs. losing portions of Juday Creek, Indiana
S.E. Silliman and D.F. Booth 131
Hydrochemistry and rock weathering in a sub-tropical Lesser Himalayan river basin in Kumaun, India
S.K. Bartarya 149
Hydrology of a prairie slough
M.-K. Woo and R.D. Rowsell 175
Comparison of the Bowen ratio–energy balance and the water balance methods for the measurement of evapotranspiration
E. Malek and G.E. Bingham 209
Relationships between precipitation, stemflow and throughfall for a lowland beech plantation, Black Wood, Hampshire, southern England: findings on interception at a forest edge and the effects of storm damage
C. Neal, A.J. Robson, C.L. Bhardwaj, T. Conway, H.A. Jeffery, M. Neal, G.P. Ryland, C.J. Smith and J. Walls 221
The potential for estimating regional sensible heat flux from convective boundary layer growth
A.D. Culf 235
Borehole dilution tests in the vicinity of an extraction well
Carl D. Palmer 245
The character and causes of a pronounced snowmelt-induced 'acidic episode' in a stream in a Scottish subarctic catchment
T.D. Davies, M. Tranter, I.L. Blackwood and P.W. Abrahams. 267
Evapotranspiration from agricultural plant communities in the high rainfall zone of the southwest of Western Australia
P.R. Scott and R.A. Sudmeyer. 301
Development of an approximate model for unsaturated flow with root water uptake under rectangular water content profiles assumption
R.S. Govindaraju and M.L. Kavvas 321

Determining the origins and history of sedimentation in an underground river system using natural and fallout radionuclides
A.S. Murray, R. Stanton, J.M. Olley and R. Morton 341
Variations in aqueous sulfate concentrations at Panola Mountain, Georgia
J.B. Shanley and N.E. Peters 361
Reservoir storage capacity with gamma inflows
Huynh Ngoc Phien 383
Isotope hydrology study of the Axios River plain in northern Greece
Th. Christodoulou, I.L. Leontiadis, A. Morfis, B.R. Payne and S. Tzimourtas 391
Hydrological explanation of the flow in karst: example of the Crnojevića spring
O. Bonacci and R. Živaljević 405
Floodflow frequency model selection in Australia
R.M. Vogel, T.A. McMahon and F.H.S. Chiew 421

Book Reviews
GeoArchive on CD-ROM — M.J. Lowing 451
Growth and Water Use of Forest Plantations by I.R. Calder, R.L. Hall and P.G. Adlard (Editors) — D.B. Smith 452
Statistical Treatment of Data on Environmental Isotopes in Precipitation — D.B. Smith 454
Land, Water and Development. River Basin Systems and Their Sustainable Management by M. Newson — D. Knighton 456

Corrigendum 459

Errata 461
